75th Year—89

Dems See Ike Growing Cooler To Tax Relief

But GOP Spokesman Raps Many 'Crockpot' U.S. Spending Plans

WASHINGTON (AP) — Two Senate Democrats said today the Eisenhower administration appears to be tightening its lines against tax cuts and further spending despite continuing unemployment.

Senators Humphrey (D-Minn) and Monroney (D-Oklahoma) criticized what they called increased administration resistance against efforts of Congress to pass legislation aimed at creating jobs.

On the other hand, Sen. Bridges (R-N.H.) said more "crockpot" schemes for federal spending had been submitted to this session of Congress than any other he could remember.

Bridges, who heads the Senate Republican Policy Committee, said he is opposed to all this "pent-up, frantic effort to spend ourselves into prosperity," adding that it can't be done.

The differing views were expressed as the Federal Reserve Board reported the seventh successive monthly drop in its index of industrial production. The figure for March, down two points to 128, was the lowest since the 1954 recession. A three-point drop was recorded for February.

THE INDEX measures the volume of output of the nation's factories and mines, with 100 indicating the 1947-49 average. At 128 percent of that figure, the March index compared with 145 a year ago and a peak of 147 in December 1956. The 1954 low was 123 in August of that year.

Along with decreased production, the board reported March drops in employment, incomes and retail sales and an increase in unemployment.

Among other things, the report said construction activity remained at a high level while private housing starts, adjusted for seasonal variations, remained about the same as February for an annual rate of less than 900,000 units.

In a separate report, the Labor Department said nonfarm housing starts during March showed a seasonal increase to 79,000 compared with February's low figure of 65,000. The March total was 9 percent under that of a year ago.

The report said adverse weather conditions in parts of February and March delayed the start of construction in many parts of the country, but privately owned dwelling units started during the first three months totaled 199,300 compared with 202,500 in the first quarter of 1957.

Church Group Raps Work 'Right' Plan

COLUMBUS (AP) — The Ohio Council of Churches has taken a stand with a group of Roman Catholic bishops of Ohio in opposing the so-called right-to-work state constitutional amendment proposal.

Adopted Monday, the resolution was prepared by the public affairs department of the council, a Protestant group, under the chairmanship of Dr. Raoul C. Calkins. He is superintendent of the Cincinnati district of the Methodist Church.

It says:

"The current proposal to place on the ballot in Ohio a constitutional change being called by its proponents a 'right to work' or 'freedom of choice' amendment is a matter for the concern not alone of the workers and employers directly affected, but of all citizens of the state."

"The public affairs committee of the Ohio Council of Churches believes it should be made clear that the proposal would not provide work for any unemployed, and that it would deny the freedom of labor unions and employers to choose the form of union security known as the union shop, which is permitted by federal law."

"It confers not a right to work but a right to share the benefits of organization without sharing its responsibility. A truthful descriptive title would be 'compulsory open shop,' not 'right to work.'"

Liz Returns To Work

HOLLYWOOD (AP) — Mike Todd's widow Elizabeth Taylor has gone back to her movie work on the set of "Cat on a Hot Tin Roof" for the first time since March 22, when Todd and three others died in a New Mexico plane crash.

NO PLACE LIKE FIRST PLACE — President Eisenhower laughs as he watches members of the Washington Senators and Boston Red Sox scramble for his opening day pitch. He then settled back as the home team beat the Red Sox, 5-2, to rewrite, temporarily, that wisecrack about "Washington — first in war, first in peace and FIRST in the American League."

'Play Ball' In Spotlight

The exciting ring of "play ball" will fill the air today as every team in the American and National Leagues swing into official baseball action for the first time in 1958.

The traditional first game of the season was played yesterday at Washington D. C. with President Eisenhower tossing out the first game ball. The Senators responded

with a solid 5-2 victory over the visiting Boston Red Sox.

Today's schedule in the American League calls for Detroit at Chicago, Kansas City at Cleveland, Washington at Baltimore and New York at Boston.

In the National League its Philadelphia at Cincinnati, Pittsburgh at Milwaukee, Chicago at St. Louis and Los Angeles at San Francisco.

McClellan Challenges Solons To OK New Code for Unions

WASHINGTON (AP) — Sen. McClellan (D-Ark) challenged Congress today to show the courage to chart a code for labor leaders, and to impose tough penalties on those who stray.

McClellan announced he is introducing a bill designed to curb abuses by "arrogant and dishonest union officials." He said it is based on findings of the

Senate Rackets Committee which he heads, but that he was acting only as an individual senator—not in the committee's behalf—in introducing it.

"It is being freely predicted in some quarters that the Congress lacks the moral and political courage to face up to this issue and to do anything about it," McClellan said in a speech prepared for formal introduction of the bill in the Senate.

"I simply cannot — do not believe we will be derelict in our duty and found wanting," he said.

McClellan's measure would give the secretary of labor broad new powers to police and clean up union affairs, and would punish as felonies such crimes as bribery, extortion, collusion or falsification of union books and records.

THEIR BIGGEST rocket to date—a 4½-foot steel missile—will be fired Sunday. If it goes up at the 700 m.p.h. speed the youthful launchers are predicting, it is expected to reach a height of at least a mile.

The three are Herman W. Hageman, John M. Romoser and Keith A. Yingling. A fourth boy, George Conn, has joined them in their recent endeavors. All are 17.

The rockets are fired with the use of electrical devices that permit the rocketeers to take shelter 100 feet away.

Tests for safety and performance already have been conducted on the rocket to be fired Sunday. It will be powered by 14 pounds of solid fuel which is expected to burn completely in less than one second.

The boys, all of whom have a growing interest in science, have been encouraged in their experiments by their parents.

Uhrichsville's Ban on Trucks Wins in First Legal Test

NEW PHILADELPHIA, Ohio (AP) — The first legal attack on the city of Uhrichsville's truck blockade has failed.

Common Pleas Judge Cletus A. Fisher Monday refused to grant a temporary injunction to the State Highway Department. The department wants to compel the city of Uhrichsville to remove barricades blocking heavy truck traffic from moving over an 1,800-foot section of a street carrying U. S. 36, U. S. 250 and Ohio 8.

Judge Fisher set April 24 for a hearing on a permanent injunction asked by the department.

In his lengthy opinion, Judge Fisher said, "I would feel derelict in my duty should I grant a mandatory injunction." He said the only evidence offered seemed to indicate the street was in a hazardous condition.

He said it would be an injustice to grant an injunction that would

leave the city open to damage suits because of bad road conditions.

The barricades have been up on the rutted, asphalt-patched section of cement roadway since last Thursday night. Mayor Jess Dempster ordered them in place, saying the street was unsafe and the city could not afford to have it rebuilt. He said the city can afford no more than 5 percent of the estimated \$150,000 rebuilding cost. The highway department demands that the city bear half the cost.

The judge's opinion quoted from the "home rule" section of the state Constitution, the revised legal code of Ohio and previous court decisions.

Meanwhile, Uhrichsville Service Director Charles Young estimated it is costing the city \$120 a day to keep men at the barricade. Dempster said that expense might force the city to let the barricades come down.

He said it would be an injustice to grant an injunction that would

Dulles Says Red Tactics Endangering World Peace

Republicans Lash Truman Proposal

WASHINGTON (AP) — Republicans today jumped on Harry S. Truman's economic prescriptions, contending that if Congress followed his advice the country would go broke.

Rep. McDonough (R-Calif) said Truman's program of federal spending could add close to \$200 billion to the federal budget over the next 10 years, while his tax program would cut \$50 billion from revenues in the same period.

"I am sure even a freshman economics student could figure out the consequences of such a program," McDonough said.

Soviet propaganda use of letters exchanged with President Eisenhower, Dulles said, is destroying one of the frail reeds upon which peace rests.

He said the Kremlin is therefore endangering peace.

Dulles told a news conference U. S. British and French ambassadors might open presummit talks in Moscow Thursday, the date suggested by Russia. But he said he was not sure because a note replying to Russia's statement of terms for negotiation has not been completed.

In advance of his news conference, it was indicated the Western powers would go to Moscow today or Wednesday.

The formula put together by the United States, Britain and France was approved Monday by the 12 other Atlantic Pact nations in Paris.

Briefly stated, it was understood to go along with the Soviet proposal that the Big Four ambassadors start talking things over in Moscow Thursday. But it was described as dead set against the product today before the American Chemical Society.

Basically the drug is an alkaloid called piperidine, but it has to go through several chemical changes. Elpern made several key findings for testing.

The strongest of these was not only 100 times the strength of morphine but 785 times as potent as meperidine or demerol, one of the most widely used synthetic pain killers, Elpern said.

However, it was also about 10 times as poisonous as demerol and slightly more poisonous than morphine.

THEATRE, MOSCOW says, should be left entirely to the heads of government at a summit meeting. Further, the Soviets want a firm date in advance for the summit.

The Allies are reported agreeable to starting ambassadorial talks Thursday. That date fits in with their suggestion that late April was a good time to get things rolling.

But they are reported telling Moscow in their new note that a delay of a week or 10 days might help matters.

If the Soviet Union insists on a Thursday start, U. S. Ambassador Llewellyn Thompson was described as ready and willing to get going.

If delay is acceptable, Thompson was expected to fly home to Washington for a huddle with Secretary of State Dulles before going into four-cornered talks in Moscow.

Dulles told the International Press Institute it was "illusory" to believe that complex, complicated issues like disarmament could be settled with broad brush strokes. He said any hope of success hinges on adequate painstaking preparation by experts.

FAIR BOARD Proposes New Grandstand

The Pickaway County Agricultural Society last night proposed the construction of a 1,200-seat grandstand and the erection of a 96 by 126 foot extension of the present pole barn.

The fair board approved the grandstand construction after being presented a plan by the Circleville Junior Chamber of Commerce and a fair board committee. The board hopes to raise a total of \$40,000 through donations of services, materials and money.

Included in the proposal are a concrete block, pre-estress cement grandstand, toilet facilities near the grandstand and near the cattle barns, in addition to the pole barn. It was decided to utilize the present bleachers and place the grandstand next to them.

The board also decided to hold the tractor pulling contest on Tuesday. Expenses for the pony pull, which will be held Saturday afternoon, will be shared equally by the fair board and Pony Assn.

It is hoped that the new fairgrounds facilities can be constructed prior to the Pickaway County Fair, Sept. 9-13.

PROSTATE CANCER Checkups Urged

CINCINNATI (AP) — A Cincinnati specialist said today all men over age 50 must have regular physical examinations if doctors are to challenge the high rate of prostate cancer.

Dr. T. Brent Wayman, director of the department of urology at the University of Cincinnati College of Medicine, told a meeting of the Ohio State Medical Assn.: "Detection of a well-outlined hard lump is the most important phase of the diagnosis."

Dr. Wayman's talk was one of several by specialists for physicians from all parts of Ohio.

ANOTHER VANGUARD Satellite Readied

CAPE CANAVERAL, Fla. (AP) — A rocket designed to carry a basketball-sized satellite into space will be fired next week, if the usual pattern of preparations is followed at the Air Force missile test center here.

A Vanguard rocket was given a static test Saturday to check the performance of its components.

Propaganda Efforts Hit By U.S. Aide

4-Nation Conference 'Might' Open Thursday In Russian Capital

WASHINGTON (AP) — Secretary of State Dulles today accused the Soviet Union of having debauched and prostituted international diplomacy and peace-making processes for propaganda purposes.

Military authorities said the band, unofficially estimated at 50 in number, had landed during the weekend at La Coloma Beach in lower Pinar del Rio province and scattered in the hills.

The army claimed it had seized

the yacht El Coraje (Courage)

and quantities of arms and munitions the invaders cached in a farm house.

News of World in Brief

Cubans Pursuing New Rebel Crew

If the new group keeps out of army hands, it will be in a position to open up a third front in Castro's guerrilla war against President Fulgencio Batista. The eastern province of Oriente, where Castro landed from Mexico with 81 men in December 1956, is the focal point of the revolt. A second front is operating in central Cuba's La Villas province.

The main rebel force in Oriente struck at several points around Guantanamo, site of the U. S. Navy's base in Cuba. Army headquarters said the insurgents suffered heavy losses.

PARIS (AP) — The Atlantic Alliance's defense ministers today heard Gen. Lauris Norstad's plans for deploying American-built missiles in four or more of their countries.

The ministers began an intensive three-day study of the 15-nation North Atlantic Treaty Organization's military muscle.

Five countries have accepted or agreed to discuss stationing in their territories nuclear warheads with 1,500-mile ranges.

Norstad, commander of NATO's military forces, estimates he needs about 210 missiles until an American intercontinental range missile is perfected with 5,000-mile range. He already has chosen some new missile sites in Europe he has to leave it to the United States to negotiate agreements with the countries concerned.

LONDON (AP) — Pat Jenkins, 21, was found guilty Monday of stealing 5 pounds—\$14—to buy a pair of new shoes so she would look nice waiting at the stage door for American pianist Liberace.

Miss Jenkins, a switchboard operator described by friends as a "mad keen" fan of the pianist, was sentenced to three months in jail.

BARCELONA, Spain (AP) — A Spanish four-engine commercial plane crashed into the Mediterranean in a driving rain Monday night, killing all 16 Spaniards aboard.

JURY PONDERS Case Against Teen Gang

NEW YORK (AP) — An all-male jury resumed deliberations today in the case of seven teen-age boys accused of slaying Michael Farmer, 15-year-old-polio-crippled son of a city fireman.

Judge Irwin D. Davidson ordered the jurors locked up in a hotel overnight when they requested a recess shortly after midnight. They had had the case six hours and spent three of them in actual deliberations.

The threat of the electric chair was removed from five of the defendants. Completing a daylong charge, Davidson told the jury that only two of the defendants, who range in age from 15 to 19, could be convicted of first-degree murder. He left the way open for the jury to convict the two on a lesser charge, if any.

The most of the other five could be guilty, he directed, was first-degree manslaughter.

A death sentence would be mandatory if the jury found Louis (Little Jesse) Alvarez, 17,

Cloudy, Rain

Cloudy tonight with occasional rain. Partly cloudy Wednesday. Low tonight 40-48, high Wednesday in the 60's. Yesterday's high, 71; low 42. High year ago, 48; 29.

McClellan's measure would give the secretary of labor broad new powers to police and clean up union affairs, and would punish as felonies such crimes as bribery, extortion, collusion or falsification of union books and records.

IT ALSO would arm the secretary with authority to void union elections upon a finding of fraud or improper practice in the balloting.

Its provisions would strip unions of their federal tax exemptions and deny them any standing before the National Labor Relations Board for failure to comply with the measure's strict provisions.

McClellan said the committee's hearings have shown exploitation of union members and the public by arrogant and crooked union leaders which he said has "reached proportions that . . . constitute a serious threat to free trade unionism . . . Unless these vicious practices are stopped, there is real danger ultimately of a racketeer, gangster-dominated economy in our country."

Mon., 104, Celebrating

Uhrichsville's Ban on Trucks Wins in First Legal Test

Common Pleas Judge Cletus A. Fisher Monday refused to grant a temporary injunction to the State Highway Department. The department wants to compel the city of Uhrichsville to remove barricades blocking heavy truck traffic from moving over an 1,800-foot section of a street carrying U. S. 36, 250 and Ohio 8.

Judge Fisher set April 24 for a hearing on a permanent injunction asked by the department.

In his lengthy opinion, Judge Fisher said, "I would feel derelict in my duty should I grant a mandatory injunction." He said the only evidence offered seemed to indicate the street was in a hazardous condition.

He said it would be an injustice to grant an injunction that would

leave the city open to damage suits because of bad road conditions.

The barricades have been up on the rutted, asphalt-patched section of cement roadway since last Thursday night. Mayor Jess Dempster ordered them in place, saying the street was unsafe and the city could not afford to have it rebuilt. He said the city can afford no more than 5 per cent of the estimated \$150,000 rebuilding cost. The highway department demands that the city bear half the cost.

The judge's opinion quoted from the "home rule" section of the state Constitution, the revised legal code of Ohio and previous court decisions.

Meanwhile, Uhrichsville Service Director Charles Young estimated it is costing the city \$120 a day to keep men at the barricade. Dempster said that expense might force the city to let the barricades come down.

Dulles Says Red Tactics Endangering World Peace

Republicans Lash Truman Proposal

WASHINGTON (AP) — Republicans today jumped on Harry S. Truman's economic prescriptions, contending that if Congress followed his advice the country would go broke.

But the former President's two hours of testimony Monday before the House Banking Committee drew grudging admiration from some Republican critics.

"He made his pitch and did it well—I was glad to watch the show," said Rep. Seely Brown (R-Conn).

Rep. Mumma (R-Pa) said Truman was entertaining, but called his testimony "a political gimmick to open the congressional campaign for 1958."

But Chairman Spence (D-Ky) said he was eminently satisfied with Truman as the opening witness in a scheduled five-week hearing on the economic situation and what to do about it.

A SELF-STYLED "retired Missouri farmer," Truman proposed an antirecession prescription compounded chiefly of an immediate \$5 billion low-income tax cut, closing of tax loopholes and a massive five-year increase in federal spending for defense and public works.

Along with these he recommended an increase in Social Security benefits, broadened and expanded unemployment compensation benefits, lowering interest on government borrowings, aid for small business, and federal loans for local public works and distressed communities.

"You can't sit and let the country go to hell," he observed.

Then, in a wisecracking question and answer period, he dis-

Fair Board Proposes New Grandstand

The Pickaway County Agricultural Society last night proposed the construction of a 1,200-seat grandstand and the erection of a 96 by 126 foot extension of the present pole barn.

The fair board approved the grandstand construction after being presented a plan by the Circleville Junior Chamber of Commerce and a fair board committee.

The board hopes to raise a total of \$40,000 through donations of services, materials and money.

Included in the proposal are a concrete block, pre-estress cement grandstand, toilet facilities near the grandstand and near the cattle barns, in addition to the pole barn. It was decided to utilize the present bleachers and place the grandstand next to them.

The board also decided to hold the tractor pulling contest on Tuesday. Expenses for the pony pull, which will be held Saturday afternoon, will be eschewed equally by the fair board and Pony Assn.

It is hoped that the new Fairgrounds facilities can be constructed prior to the Pickaway County Fair, Sept. 9-13.

April 15 Marks An Unhappy Day

Today probably is classified as an unpopular day for many local citizens.

Yes, its April 15, deadline for filing income tax reports for 1957. Without a doubt many unhappy wage earners burned the midnight oil last night in order to keep on the good side of Uncle Sam and his revenue department.

Indications locally are that people who had money coming back filed their returns months ago. However, many of those owing the government followed the usual habit of waiting until the last minute.

A judge's opinion quoted from the "home rule" section of the state Constitution, the revised legal code of Ohio and previous court decisions.

Meanwhile, Uhrichsville Service Director Charles Young estimated it is costing the city \$120 a day to keep men at the barricade. Dempster said that expense might force the city to let the barricades come down.

Propaganda Efforts Hit By U.S. Aide

4-Nation Conference 'Might' Open Thursday In Russian Capital

WASHINGTON (AP) — Army forces today pursued a yachtload of Cuban rebels from Mexico who landed on Cuba's southwest coast in an attempt to open a new front for insurgent leader Fidel Castro.

Military authorities said the band, unofficially estimated at 50 in number, had landed during the weekend at La Colombia Beach in lower Pinar del Rio province and scattered in the hills.

The main rebel force in Oriente struck at several points around Guantanamo, site of the U. S. Navy's base in Cuba. Army headquarters said the insurgents suffered heavy losses.

Jury Ponders Case Against Teen Gang

NEW YORK (AP) — An all-male jury resumed deliberations today in the case of seven teen-age boys accused of slaying Michael Farmer, 15-year-old polio-crippled son of a city fireman.

Judge Irwin D. Davidson ordered the jurors locked up in a hotel overnight when they requested a recess shortly after midnight. They had had the case six hours and spent three of them in actual deliberations.

The threat of the electric chair was removed from five of the defendants. Completing a daylong charge, Davidson told the jury that only two of the defendants, who range in age from 15 to 19, could be convicted of first-degree murder. He left the way open for the jury to convict the two on a lesser charge, if any.

The most the other five could be guilty of, he directed, was first-degree manslaughter.

A death sentence would be mandatory if the jury found Louis (Little Jesse) Alvarez, 17, and Charles (Big Man) Horton, an 18-year-old Negro, guilty of first-degree murder. He left the way open for the jury to convict the two on a lesser charge, if any.

There was testimony during the 95-day trial — perhaps the longest and costliest murder trial in the city's history — that Alvarez, a Puerto Rican and president of the Egyptian Dragons, a youth gang, plunged a hunting knife into the Farmer youth's back.

The five other defendants have been pictured in testimony as striking, stomping and using belts and a dog leash on Farmer, a white youth whose crippled legs prevented him from fleeing.

Use of Science Urged

CLEVELAND (AP) — Commissioning of scientists to make recommendations for conserving Ohio's natural resources has been suggested by Mayor Maynard E. Senbrenner of Columbus.

"Detection of a well-outlined hard lump is the most important phase of the diagnosis."

Dr. T. Brent Wayman, director of the department of urology at the University of Cincinnati College of Medicine, told a meeting of the Ohio State Medical Assn.:

"Detection of a well-outlined hard lump is the most important phase of the diagnosis."

Dr. Wayman's talk was one of several by specialists for physicians from all parts of Ohio.

Stock Mart Trade Active, Some Higher

NEW YORK (AP) — Industrial shares carried the ball for a stock market advance early this afternoon. Trading was active.

The opening was mixed and turnover moderate for a while. Then motors, some steel shares, American Telephone, Fairchild engine and other selected issues were traded briskly.

Leading stocks rose fractions to around a point. Most changes were fractional. There were some losers.

The rails and utilities did little. Aircrafts were ahead but trading was more moderate.

Market analysts saw the advance as a continuation of Monday's rise. Business and economic news was not encouraging. Industrial production was reported at its lowest level since November 1954.

General Motors and Chrysler moved ahead fractionally. American Motors was about unchanged. Ford rose a bit.

Although steel production this week is slated for an 8 1/4-year low, barring strike periods, U.S. Steel advanced a major fraction. Lukens was up a point or so. Youngstown Sheet nudged forward. Bethlehem dropped a bit.

Fairchild Engine was up a good fraction. United Aircraft gained about a point and Boeing rose a bit.

Responding to lower earnings, U. S. Rubber dropped a sizable fraction. Anaconda and Baltimore & Ohio were off a bit. International Nickel lost about a point. American Telephone rose a little. Gains of about a point were made by Gulf Oil, Du Pont and Allied Chemical.

U. S. government bonds were steady to slightly higher in slow transactions.

Crime Doesn't Pay

Old Adage Still True

It's true, "Crime Doesn't Pay". Charles Bocook Jr., 26, Columbus, was handed a 30-day jail sentence and fined \$40 and costs today in Circleville Municipal Court on a charge dated Aug. 25, 1952—five years and eight months ago.

Bocook was arrested yesterday by the Pickaway County Sheriff's Department, after a tip to officers. Deputies had been trying to catch Bocook since 1952, but the defendant had been moving between a home in Kentucky and Columbus with regularity.

He was charged with stealing a 22 calibre rifle from M. D. Lorentz, Route 4, back in 1952. Kentucky authorities have placed a retainer on Bocook. He is wanted in Ashland, Ky. for conversion.

Stock Mart Trade Active, Some Higher

NEW YORK — Industrial shares carried the ball for a stock market advance early this afternoon. Trading was active.

The opening was mixed and turnover moderate for a while. Then motors, some steel shares, American Telephone, Fairchild engine and other selected issues were traded briskly.

Leading stocks rose fractions to around a point. Most changes were fractional. There were some losers.

The rails and utilities did little. Aircrafts were ahead but trading was more moderate.

Market analysts saw the advance as a continuation of Monday's rise. Business and economic news was not encouraging. Industrial production was reported at its lowest level since November 1954.

General Motors and Chrysler moved ahead fractionally. American Motors was about unchanged. Ford rose a bit.

Although steel production this week is slated for an 8% year low, barring strike periods, U.S. Steel advanced a major fraction. Lukens was up a point or so. Youngstown Sheet nudged forward. Bethlehem dropped a bit.

Fairchild Engine was up a good fraction. United Aircraft gained about a point and Boeing rose a bit.

Responding to lower earnings, U. S. Rubber dropped a sizable fraction. Anaconda and Baltimore & Ohio were off a bit. International Nickel lost about a point.

American Telephone rose a little. Gain of about a point were made by Gulf Oil, Du Pont and Allied Chemical.

U. S. government bonds were steady to slightly higher in slow transactions.

Crime Doesn't Pay

Old Adage Still True

It's true, "Crime Doesn't Pay". Charles Bocook Jr., 26, Columbus, was handed a 30-day jail sentence and fined \$40 and costs to day in Circleville Municipal Court on a charge dated Aug. 25, 1952—five years and eight months ago.

Bocook was arrested yesterday by the Pickaway County Sheriff's Department, after a tip to officers. Deputies had been trying to catch Bocook since 1952, but the defendant had been moving between a home in Kentucky and Columbus with regularity.

He was charged with stealing a 22 calibre rifle from M. D. Lorentz, Route 4, back in 1952. Kentucky authorities have placed a retainer on Bocook. He is wanted in Ashland, Ky. for conversion.

Mainly About People

Model Plane Seeks Record

6-Foot Ship Handled By Radio Controls

VAN NUYS, Calif. — An attempt to crack a Soviet-held aviation record was to be made today starting on a dirt road in a field behind a dam.

Timers from the international timing group will be on hand when the red-and-yellow monoplane takes off for what may be a new endurance record.

The craft is a radio-controlled model plane with a 6-foot wingspan. Builder Ken Willard, 40, a mechanical engineer, will control it from the ground.

At stake is the Soviet record of 3 hours and 6 minutes.

The plane is the same one which Willard guided across the 28 miles between Long Beach, Calif., and Santa Catalina Island last July.

"He would have set the official world's distance record on that flight," said Russell W. Nichols, executive director of the Academy of Model Aeronautics, Washington, D. C., "except no official observer was along."

NICHOLS, a delegate to the convention in Los Angeles this week of the Federation Aeronautique Internationale, is one of the timers who will check to see that Willard's plane satisfies all the requirements to set the record.

"It must land within 500 feet of its takeoff point," Nichols explained. "Willard is using a dirt road at the Sepulveda flood control basin for the takeoff. He has to bring it down at just about the same spot."

Veteran Water Works Man In 36th Year

CLARENCE J. (Jack) Martin, 75, of 408 E. Union St. today was promoted to the rank of chief in the Circleville Water Department. He started just 35 years ago.

Martin, superintendent of distribution, started with the local utility in 1923. At that time the water works was a private utility. The company had a horse and express wagon and used picks and shovels for all work.

Today the department is a municipal utility and uses pneumatic hammers and radio-equipped trucks.

Fourth Youth Gets Probation

One of five youths involved in a local juvenile burglary ring today was sentenced by Juvenile Judge Guy G. Cline.

The 16-year-old youth was sentenced to the Boys Industrial School, but sentence was deferred and he was remanded to custody of his parents for three years probation.

Sentencing of this youth and one more was delayed due to charges being filed late by Ashland, Ky. police for a burglary of a safes and cash register. Two of the youths have been placed on three year probation and the ringleader was committed last Saturday.

The embassy said that after being notified of the recall, Toussaint went home, talked with his wife, returned to the embassy and shot Devieux.

Under diplomatic regulations, Toussaint could not be arrested in this country and tried for the slaying unless his country waived diplomatic immunity.

DuPont Chemist Speaks At Kiwanis Meeting

Ralph Scoton, DuPont Research Chemist, addressed the Circleville Kiwanis Club last night at its regular weekly meeting held in the Mecca Restaurant.

Scoton spoke on Switzerland.

Truman Eberly led the group in singing. Guests included Robert Kast, of the Cleveland General Electric plant, Dave Hoffman, teller at the Circleville Third National Bank and Gerald Stahley, Lancaster.

Darby Pupils Visit
Herald Today

Five Darby High School students made a tour of The Circleville Herald today.

Taking part in the tour were Mary Gardner, Ruth Bowsher, Bertie Looney, Barb Decker and Gary Wardell.

The students made the trip in

an effort to gain experience in publishing their new school paper "The Trojan Times".

Weldon Ave. Boy, 4, Bitten by Canine

Bicki Keaton, 4, son of Mr. and Mrs. Robert Keaton, 381 Weldon Ave., was bitten on the back of the leg by a dog yesterday. He was treated at Berger Hospital and

News Briefs

(Continued from Page One) pany claimed today that the world's first vertical takeoff airliner — it goes straight up, then straight ahead — soon will be hauling 40 or more passengers from the heart of one city to the center of another.

The Fairley Aviation Co. announced its Fairley Rotodyne Base, makes the 220-mile flight from central London to the heart of Paris in 100 minutes instead of the present 4½ hours required — the long bus trips to and from the airports taking so much time.

The 40-passenger, 150-mile-an-hour craft has made 71 highly satisfactory flights since it first took to the air last Nov. 6, the company said.

PANAMA — Charging disre-
mendation, Panama's government today asked the United States to free a Panamanian Negro who has served 12 years of a 50-year sentence for raping a white woman.

The Panamanian noted pointedly

that the Panamanian Negro had pleaded guilty to committing rape in the Canal Zone, which is under U. S. jurisdiction. He was sentenced in April 1946 at the age of 20.

QUITO, Ecuador — A series of sharp quakes rocked Ecuador's northern port of Esmeraldas Monday night, killing 1 person, injuring 12 and toppling several houses.

The Panamanian Negro had pleaded guilty to committing rape in the Canal Zone, which is under U. S. jurisdiction. He was sentenced in April 1946 at the age of 20.

TOKYO — Walter Williams, U. S. undersecretary of commerce, left for the United States today after a month of conferences with Japanese businessmen. He headed a five-man American trade mission which also attended the Japan trade fair now under way in Osaka.

They were all in a flat-bottomed boat with Garland Hall of Ashland, Ky., Sunday afternoon. When the motor suddenly quit, the boat apparently was caught in the current and swirled under a cluster of barges tied to the bank.

Only Hall, 15, managed to escape the water's downward suction. He swam close enough to shore for an Ohio highway patrolman to pull him out.

Since then, the search for the other three has continued day and night. The barges have been moved, and extensive dragging operations have been carried on.

Yemen disputes British possession of the protectorate, in the southwestern corner of the Arabi-

an peninsula.

TOKYO — Japan and Indo-
nesia today exchanged documents ratifying the Japanese-Indonesian War II peace treaty and a \$223,080,000 reparations agreement. The reparations will be paid in goods and services over 12 years.

BRUSSELS — Queen Mother Elisabeth of Belgium today arrived home aboard a Soviet jet airliner from a visit to Russia. The Queen attended the Tchaikovsky piano festival.

COLUMBUS — After today, the main job of the two wing organizations at Lockbourne Air Force Base here will be strategic bombing with B47 jet bombers.

The 301st Bombardment Wing officially arrives from Barksdale AFB, Shreveport, La., today to replace the 26th Strategic Reconnaissance Wing, which specialized in aerial photography. Members of the 26th wing will join the 301st organization. The 376th bomb wing already is stationed here.

172 of 282 Students
Pass Ohio Law Exam

COLUMBUS — The Ohio Supreme Court announced today that 172 of 282 candidates passed the state bar exam held March 4-6.

Highest grade out of a possible 400 was achieved by William W. Wehr of Steubenville with 357.5. Oaths will be administered to the new attorneys next week.

The list of successful applicants included:

John L. Evans Jr., 62 E. Columbus St., Nelsonville.

Jon C. Hapner, Rt. 3, Hillsboro.

released. The dog was ordered tied for 10 days.

Space Perils at Home

From the United States commissioner of education, Lawrence G. Dethrick, comes a new kind of warning to parents about what must be done in the home if the nation is to enter safely upon the space age.

Junior, says Dethrick, should be encouraged to take an avid interest in rocketry and all things scientific. But he should be kept out of the basement, lest he be improvising something which will blast the family roof on an unscheduled flight into outer space.

The government, via Dethrick, has thoughtfully provided a check list to adults on what must be done to assist youth through the special perils and opportunities of today.

Some of the points entrust to Mother and Father as heavy a task as any undertaken

at Cape Canaveral. For example: "Know ever where your child is working and what he is attempting." The over-all rule of caution is: "Never, never let youth build a rocket; mix rocket fuel, or attempt to launch it, without supervision by an adult rocket expert."

It's too late now to question whether parents are fit for this Brave New World. Theirs but to answer: "We'll try, but it isn't easy."

Courtin' Main

Keeping appearances up and expenses down is not getting easier.

Can You Remember When - - By Hal Boyle

NEW YORK (AP) — Life wasn't always this way:

Remember when it was a sign of wealth if you got your hair cut any time except after work on Saturday?

Remember when a juvenile delinquent was a kid too lazy to hold a job and go to school at the same time?

Remember when there was so little traffic on the road you could go somewhere on Sunday and get back the same day?

Remember when, if a weapon was used in a classroom, it was wielded by the teacher?

Remember when April 15 was just a day in the middle of the month?

Remember when automobile

windshields opened out and cars had running boards?

Remember when you went to the store for your mother, the grocer always reached in the barrel and gave you a free sour pickle?

Remember when a child got a 25-cent weekly allowance the neighbors whispered he was sure to grow up spoiled?

Remember when the limit of outer space was the farthest town you could pick up on your new crystal radio set after midnight?

Remember when you had to go abroad to see a foreign car?

Remember when to get ahead in business you had to play a good game of mah-jongg?

Remember when the Wild

West was in Montana instead of your living room?

Remember when you could get a good hotel room for \$2?

Remember when children were strong enough to walk to school?

Remember during the last depression when economists cautiously agreed the country could stand a debt of \$75 billion?

Remember, in the age before rockets blasted off, the symbol of adventure was a train whistle?

Remember when it was chic to have your appendix removed?

Remember when the man who came to dinner arrived just before noon? The meal at dusk was supper.

By George Sokolsky

discover that the aid we gave to Poland was intended to produce none of the results they stated. Gomulka said:

"The Polish people have much evidence, based on our own example, that certain capitalist circles are trying to exploit economic relations with the socialist countries, particularly through the granting of credits with a view to loosening the unity of the socialist states. The U. S. Government, by recently granting credit to Poland in the form of goods, did not put forth any conditions which were in any way aimed at our independence and our policy. It can be stated that credits granted to us on such conditions are fully in compliance with the principles of equality and noninterference in internal affairs and are to our economic benefits."

There is much more of this, more than Senator Ellender or anyone else can read in "over a week."

I would suggest, if it is not too much to ask, that Senators Aiken and Ellender get this speech of Gomulka's from the Library of Congress. They might

be like us and everything would be perfect.

Senator Ellender regards himself as an expert on Poland. He had been there "over a week."

I do not know whether Senator Ellender speaks Polish but I do know that comparatively few Poles speak English. Senator Ellender's powers of observation must be enormous if in "over a week" he can discover the soul of one of the most complex peoples of Europe, Slavic in origin, Latin in civilization. This is what Senator Ellender said:

"For example, I have just returned from Poland. I visited the country for over a week. I went all over the country. There is no question but that the government of Poland is Communistic. There is no doubt about it. However, I venture to say that the people there are against Communism."

The following colloquy is most interesting:

"Mr. Aiken. Did not the Senator notice that, according to articles in the newspapers the other day, Poland is giving a substantial portion of state-owned land to the people?"

"Mr. Ellender that is because we are making progress in our effort to wean Poland and other Iron Curtain countries away from Russia."

"On this subject, I should like to quote Wladyslaw Gomulka, head of the Polish government, speaking on November 28, 1957, shortly before these Senators debated as above:

"The idea of the inevitable fall of the capitalist system, whose place will be taken by the socialist system, already was expressed and scientifically established by the founders of the theory of scientific socialism, Marx and Engels, in the 19th Century. They enabled them to foresee the fall of capitalism at a time when capitalism was only entering the stage of its full development and when as a social system it was playing a progressive role."

When I want to quote further from this speech:

"The Great October Socialist Revolution in Russia, which met with a wide response and the support of the international

Benson in 'Full Sympathy' With Ohio Wheat Rebels

WASHINGTON (AP) — A delegation of Ohio wheat growers fighting the federal farm program to the point of defying wheat acreage limits reported Monday Secretary of Agriculture Benson expressed full sympathy with their views.

"He is in perfect agreement with us," Frank J. Saffell of North Georgetown, Ohio, told reporters after 15 farmers conferred privately with the secretary.

"He is working toward the elimination of all controls."

The group, representing the independent farmers of Ohio, called on Benson to discuss opposition to all subsidies for farmers and their support for a return to the law of supply and demand on farm commodities.

The leader of the delegation and chairman of the Independent Farmers, a group with about 800 active members, was Dr. P. Scott Whiteleather of Minerva, Ohio.

Whiteleather refused last April 1 to allow members of the Agriculture Department's local stabilization committee to measure his farm for wheat acreage allotments.

Anti-City Tax Suit Dismissed

COLUMBUS (AP) — A Franklin County common pleas judge Monday dismissed a suit seeking to prevent the City of Columbus from collecting the city's one per cent income tax from Statehouse employees who live outside Columbus.

At the same time, Judge Dana F. Reynolds dissolved a temporary injunction that had restrained the city from collecting the tax.

Attorney James Maxwell Jr., of suburban Whitehall filed the suit.

In his opinion, Judge Reynolds said the Statehouse grounds are part of Columbus and that out-of-town State House workers should be subject to the tax because "the municipality certainly does afford protection against fire, theft, etc."

Ex-Armco Chief Dies

MIDDLETON (AP) — Heber H. Tullis, 56, a retired vice president of the Armco Steel Corp., died at his home here Monday. He was a native of Blanchester.

Asked by reporters what Benson thought of that, he said the secretary smiled and "got a big bang out of it."

Whiteleather said he and his delegation came to Washington at Benson's invitation following a demonstration by Whiteleather and his supporters in favor of the secretary.

At the time, March 25, Benson was making a speech in Columbus, Ohio. The farmers paraded picket-fashion with signs telling Benson he was on the right track and doing a good job.

A spokesman for Benson said it was his understanding that today's meeting was the farmers' idea, not Benson's.

The delegates emerged from the conference with a stack of pamphlets they said Benson passed out.

The pamphlets were entitled "The ABC's of the Farm Problem" written by John L. Strohm, a Benson adviser, for the Agricultural Institute of St. Louis, a private foundation. It listed what was described as "a common sense farm program," as follows:

Quit trying to fix farm prices; free farmers gradually from controls; get rid of surplus gradually; promote markets abroad; expand markets at home; develop new crops and new uses; and help small farmers help themselves.

Clearance Sought For Ezra Pound

WASHINGTON (AP) — Attorneys for Ezra Pound have asked district court to dismiss a treason indictment against the poet in a move highlighted by a supporting statement from poet Robert Frost.

The statement by Frost said: "none of us can bear the disgrace of our letting Ezra Pound come to his end where he is (in hospital for the insane). It would leave too woeful a story in American literature."

An affidavit from St. Elizabeths Hospital Supt. Winfred Overholser said Pound not only is incurably insane, but there is a strong possibility that the commission of the crimes charged was the result of insanity.

LAFF-A-DAY

The World Today

WASHINGTON (AP) — Gabriel Hauge, the President's special assistant on economic problems, is such an expert on qualifying practically everything he says that he makes a diplomat's speech on foreign affairs look like simple ABC.

He made a speech himself Monday night. It was heavily qualified. And it was full of the usual and obvious criticism of Soviet communism and its handling of economic dilemmas.

But elsewhere in his speech Hauge acknowledged the Soviet economy-sixth in the world under the czars-has moved up to second behind the United States and is still growing.

Ironically, this is pretty much the picture the Soviets themselves are trying to present to the world. Premier Khrushchev is working hard at it. And Hauge showed respect for the realism and down-to-earthness of Khrushchev.

Since Hauge is close to the President—and his speech was put out before hand by the White House—it can be taken for granted Eisenhower is aware of, and concerned about, the new flexibility and drive of the Soviets.

Not long ago it was customary to look upon the Soviets as backward oafs. Not any more.

They provided—with their development of their own atomic and hydrogen bombs and the launching of the Sputniks—grim testimony to their scientific and industrial progress and the strides

they've made towards catching up with this country.

The new respect for Soviet ability—as reflected in Hauge's talk—is illustrated by the Eisenhower administration's extreme caution, which sometimes seems defensive in dealing with the Soviets.

This is a typical example of Hauge's jibes at the Soviets: "... We can say that 40 years of communism have given the average Russian citizen one more shirt in return for his sacrifices."

But elsewhere in his speech Hauge acknowledged the Soviet economy—sixth in the world under the czars—has moved up to second behind the United States and is still growing.

"The Soviet economy," Hauge said, "has been growing since 1950 at a rate roughly twice that

of the United States. . . . It is a significant fact of today's world. It is a fact Americans should understand."

He mentioned various Soviet deficiencies—particularly in agriculture—but also noted the Soviet leadership under Khrushchev has promised the people better living and a fuller life.

Then he mentioned the "implications" in these promises although heavily qualifying anything that might look like a prophecy:

The Soviet leadership, having eased up on the old Stalinist restraints and suppressions, will have a tough time trying to restore them, if they ever think that's necessary; there will be more and more emphasis on consumer goods; there is a tendency toward a more "liberal" outlook on the part of Soviet intellectuals, managers and technicians; and even Communist doctrine is being forced to change.

And Hauge, avoiding prophecy, raised a question: "Is it possible that economic growth and scientific development within the Soviet Union will consume the roots of Russian communism?"

Don't Neglect Slipping FALSE TEETH

For false teeth, draw, slip or wobble when you talk, eat, laugh or sneeze. Don't be annoyed and embarrassed by such handicaps. Booming Voice of Experience

Senator Allen J. Ellender, of Louisiana, often reminds one of an American Army officer from the Philippines who was about to retire and was seeking something to do.

On his second day in Shanghai, China, and he had not yet seen any of China he had found the solution for all of China's problems — the problems were then calling for solution as they had for several centuries. The colonel's solution was for the Chinese to drop the Chinese language and to accept English in its stead. Then, he said, they would be like us and everything would be perfect.

Senator Ellender regards himself as an expert on Poland. He had been there "over a week." I do not know whether Senator Ellender speaks Polish but I do know that a comparatively few Poles speak English. Senator Ellender's powers of observation must be enormous if in "over a week," he can discover the soul of one of the most complex peoples of Europe, Slavic in origin, Latin in civilization. This is what Senator Ellender said:

"For example, I have just returned from Poland. I visited the country for over a week. I went all over the country. There is no question but that the government of Poland is Communistic. There is no doubt about it. However, I venture to say that the people there are against Communism."

The following colloquy is most interesting:

"Mr. Aiken, Did not the Senator notice that, according to articles in the newspapers the other day, Poland is giving a substantial portion of state-owned land to the people?"

"Mr. Ellender that is because we are making progress in our effort to wean Poland and other Iron Curtain countries away from Russia."

"On this subject, I should like to quote Wladyslaw Gomulka, head of the Polish government, speaking on November 28, 1957, shortly before these Senators debated as above:

"The idea of the inevitable fall of the capitalist system, whose place will be taken by the socialist system, already was expressed and scientifically established by the founders of the theory of scientific socialism, Marx and Engels, in the 19th Century. They enabled them to foresee the fall of capitalism at a time when capitalism was only entering the stage of its full development and when as a social system it was playing a progressive role."

When I want to quote further from this speech:

"The Great October Socialist Revolution in Russia, which met with a wide response and the support of the international

workers movement, opened a new era in the history of the world—the era of socialism. This first great breach in the world's system, in which the capitalist and landowner class occupied a dominating position, contributed to the speeding of the development of the workers movement in all countries, to the spread of the ideas of socialism among the working masses of the whole world."

And finally: "...Today there is no longer any doubt that socialism is superior to capitalism, for this has been proved in practice in the most convincing field—that of science and engineering. The launching by the Soviet Union of artificial earth satellites has dispersed all the myths of the superiority of capitalism."

I would suggest, if it is not too much to ask, that Senators Aiken and Ellender get this speech of Gomulka's from the Library of Congress. They might

Benson in 'Full Sympathy' With Ohio Wheat Rebels

WASHINGTON (AP) — A delegation of Ohio wheat growers fighting the federal farm program to the point of defying wheat acreage limits reported Monday Secretary of Agriculture Benson expressed full sympathy with their views.

"He is in perfect agreement with us," Frank J. Saffel of North Georgetown, Ohio, told reporters after 15 farmers conferred privately with the secretary.

"He is working toward the elimination of all controls."

The group, representing the independent farmers of Ohio, called on Benson to discuss opposition to all subsidies for farmers and their support for a return to the law of supply and demand on farm commodities.

The leader of the delegation and chairman of the Independent Farmers, a group with about 800 active members, was Dr. P. Scott Whiteleather of Minerva, Ohio.

Whiteleather refused last April 1 to allow members of the Agriculture Department's local stabilization committee to measure his farm for wheat acreage allotments.

The idea of the inevitable fall of the capitalist system, whose place will be taken by the socialist system, already was expressed and scientifically established by the founders of the theory of scientific socialism, Marx and Engels, in the 19th Century. They enabled them to foresee the fall of capitalism at a time when capitalism was only entering the stage of its full development and when as a social system it was playing a progressive role."

When I want to quote further from this speech:

"The Great October Socialist Revolution in Russia, which met with a wide response and the support of the international

workers movement, opened a new era in the history of the world—the era of socialism. This first great breach in the world's system, in which the capitalist and landowner class occupied a dominating position, contributed to the speeding of the development of the workers movement in all countries, to the spread of the ideas of socialism among the working masses of the whole world."

And finally: "...Today there is no longer any doubt that socialism is superior to capitalism, for this has been proved in practice in the most convincing field—that of science and engineering. The launching by the Soviet Union of artificial earth satellites has dispersed all the myths of the superiority of capitalism."

I would suggest, if it is not too much to ask, that Senators Aiken and Ellender get this speech of Gomulka's from the Library of Congress. They might

State School Board Chides Extra Events

Activities on Night Before Classes Said To Be Detrimental

COLUMBUS, Ohio — Ohio's public school students may be more inclined to finish homework and get a good night's rest if sports events and other extra-curricular activities aren't held the evening before class days.

That was the deciding factor when the State Board of Education Monday passed a resolution offered by Loren E. Souers, Jr. of Canton. It asks school boards and officials to cut to a minimum all extra-curricular activities on evenings preceding school days.

It will be called to the attention of those scheduling inter-scholastic competition, as well as the controlling board of the Ohio High School Athletic Assn. and other agencies affected.

The resolution declares that a properly oriented academic program requires students to have adequate time to prepare for the next day's classes. It emphasizes that activities should be cut which require travel on the eve of school days.

The board also tightened up regulations governing use of state money in the summer school program. In this matter, the key word was "activities."

Regulations adopted in October 1956 permitted spending state funds for courses and activities in summer school programs.

Monday's action by the board cuts out "activities" which, members say, probably cuts out extra pay allowances for: coaches who supervise recreation programs, band directors who conduct musical instrument practice, and others. That is, unless they qualify in some situations as sources of scholastic credit for promotion or graduation.

Summer school courses now will be limited to:

Grades 9-12 (high school)—courses for credit toward graduation.

Grades 1-8 — courses (mostly make-up courses) needed for promotion to the next grade.

Viewing recent accidents involving school buses, the board appointed a committee to determine whether the state has an adequate safety program. The committee will hold a preliminary meeting Friday.

A sub-committee submitted reports suggesting modernization of audio - visual services to Ohio schools and classroom instruction with television. The reports were held for further study.

Although the board will meet at its president's call, no specific May meeting was arranged.

In other action, board members: Authorized School Supt. E. E. Holt to approve qualified architects selected by district school boards, and to pass on preliminary and final plans, specifications and estimates in district school building projects.

Set June 1 as deadline for receiving applications for about \$1,800,000 left of 10 million dollars allowed by the Legislature this year for building classrooms to relieve overcrowding.

Filed letters protesting actions against the Amish in Wayne County for refusing to send their children to high schools. The board said it is powerless to act.

Recommended approval of a \$901 payment to Marietta City School District by Fearing Local School District of Washington County. The board said this was fair division of funds on hand when part of the Fearing district was transferred to the city district. In turn, the city board of education is to pay \$543 a year for 23 years.

School News

The Circleville Herald, Tuesday, April 15, 1958

Jr. High Places 63 on Honor Roll

Six pupils earned perfect averages of 4.0 in the seventh and eighth grades at Circleville during the past six weeks.

Perfect grades went to Barber Wilson, Robert Ruhrman, Barbara Vandemark, Jon Anderson, Lyn Reichelderfer and Donna Crable.

An average of 3.85 was earned by Diane Ankrom, Tim Dickinson, Carol Butch, Sandy Ward, Beth Rickey, Carolyn Walters, Peter DeNeef, David Hannahs, Patti Hines, Elaine Hutzelman, Cheryl

Pete Smith Competes for State Honor

Pete Smith, Pickaway Twp. senior, traveled to Akron Friday where he competed in the State Academy of Science meeting.

Smith's unusual project for competition is the skeleton of a young dog. The same entry earned him a superior rating in the District Science meet held in Columbus several days ago.

The Pickaway senior has not yet received results of the Friday and Saturday competition.

A member of the Pickaway Twp. Science Club, Smith has his mind set on becoming a veterinarian. According to his teachers, his high school science ability indicates that he is following the right career.

HIS superior project was made from the body of a young dog which had died. He erected the skeleton by using fine wire and other original methods.

Mrs. Robert Mills serves as advisor for the Pickaway Science Club.

Style Review at Darby

The Darby High School Home Economics class will sponsor a "Style Review" at 8 p. m. Saturday in the school gymnasium. The show will be backed by Ivan Hill.

to the Fearing district as its share of indebtedness existing at the time of the transfer.

Agreed to a transfer of a tract of land in Mount Healthy City School District to Hamilton County's Colerain Local District.

Also okayed transfer of a tract from Granville Exempted Village School District to Newark City District.

Heard from Supt. Holt that "there is considerable opposition to the proposed transfer (of Portor Twp. and Vernon Twp. precincts from Portsmouth City District to Scioto County District) and a number of signers (of petitions) have indicated their desire to have their names removed". It is possible that the petition may be recalled, he said, adding that, if not, it will be necessary to conduct a hearing.

Listened to the protest of J. Herbert Perrill, president of Miami Trace District in Fayette County, who opposes a survey of the county's two school districts. The other is Washington Court House City District. The two may consolidate. Sam Marting of Washington Court House offered \$3,000 on behalf of a citizens' group for the survey and the city district has agreed to pay up to \$2,500 of its cost.

Class Play Cast Earns High Rank

Members of the cast of Circleville High School's senior class play "Night Must Fall" earned a rating of excellent in the Central Ohio District Drama Contest held Saturday at Otterbein College, Westerville.

The excellent rating enables the cast to compete in the State Drama Contest which will be held at Ohio State University April 26. They will vie with winners from all other districts in Ohio.

Members of the cast participating were: Jerry Cast, Carol Weiler, Martha Smith, Anne Steele, David Hutzelman, Shelby Beavers and Gladys Jacobs.

Members of the crew were: Gaylord Greenlee, Charlene Bass, Dale Wilkinson, Lowell Rowland, Carolyn Hamrick, Carol Barnes, Dottie Boggs, Nelson Kelley, John Hampp, Tom Lowery and Marilyn Barthelmas.

The play was directed by Gerald E. Brown.

Darby Seniors Clip All-Star Cagers

The senior class cage team of Darby High School posted a 57-53 win over an all-star team composed of top players from the freshman, sophomore and junior classes.

The seniors won the school championship several days ago.

Marvin Nance, named outstanding player of the tournament, will receive a trophy.

Pickaway Juniors Plan Class Play

Pickaway Twp. High School's junior class play "The Beauty and the Beast" will be presented at 8 p. m. April 26 in the school auditorium.

The play is under the direction of Miss Elizabeth Umsted.

Play Date Changed

Darby High School's senior class play "Festiven Over Yonder" will be held April 25 instead of April 15 as previously announced.

Key Clubbers Attend Meet

Plans Are Made For Convention

Seven members of the Circleville High School Key Club and their advisor attended the ninth annual Ohio District Convention at Euclid High School, Euclid, Friday and Saturday.

Members attending were Tom Greeno, David Young, Dick Gerhardt, Ronnie Warren, George Meyers, Leo Mots and Danny Robinson. Advisor for the local club is Gordon Anderson.

A highlight of the convention was an address Friday evening by Howard Freer of General Motors, Detroit, Mich.

He stressed the importance of youth's having and maintaining high objectives. He also pointed out the need to develop scientific and mathematical interests in young men and women.

Main work of the convention on Saturday was election of next year's Ohio District officers and planning for the International Key Club Convention to be held in Chicago, Ill., in July.

Darby Publishes First Newspaper

Juniors at Darby High School published the first edition of The Trojan Times, the new school newspaper.

The paper gave a wide coverage on recent and expected school activities.

Trojan Baseballers Down Ashville, 12-6

Darby Twp. High School baseball team opened the season last week with Ashville by posting a 12-6 decision over the Broncos.

Darby PTC Names Officers for 1958

New officers for the Darby parent - Teachers group have been named for the coming year.

Robert Vincent was elected president, Doris Gantz, vice president, Jean Writsel, secretary and Geraldine McPherson, treasurer.

Miss Williams Honored

Velma Williams, sophomore, earned second high in the Darby High School pre-scholarship English test.

Senior SOS Elects Officers

Circleville High School's Senior Service Over Club has elected officers for next year.

The following slate has been chosen: Barbara Sieverts, president; Phyllis McCoard, vice president; Carol McFarland, recording secretary; Joan Vaughan, treasurer; and Connie Butcher, corresponding secretary.

The senior group then chose three members of the Junior Service Over Club to complete its cabinet. They are: Sara Wantz, program chairman; Sharon Barthelmas, service chairman; and Cheryl Evans, publicity chairman.

Ohio School Bills Falter in Assembly

DAYTON (AP) — Bills introduced to help Ohio's public schools took a beating in the last Legislature, a Democratic gubernatorial candidate asserted Monday night.

Albert S. Porter, Cuyahoga County engineer and one of seven Democratic candidates for governor, said that the Legislature:

Failed to provide money for school building rehabilitation for the first time in 12 years; allotted only about half the money (about \$10 million) needed for school construction in the next two years; killed a plan to get extra money

EMS Clubs Hold Annual Banquet

The Junior and Senior Epsilon Mu Sigma Clubs of Circleville High School held their annual spring banquet at the Presbyterian Church last night.

Advisors to the clubs are: Wayne Reno, Jr. EMS and Mrs. Clark Will, Sr. EMS. Both are English teachers at Circleville.

The Dutch bought Manhattan from the Indians in 1626 for trinkets worth \$24.

MARATHON

Home of SUPER-M® and MILE-maker® gasolines

SMILE-maker SERVICE is a service mark used and owned by The Ohio Oil Company

Copyright 1958, The Ohio Oil Co.

We believe every motorist has a right to expect the finest service possible when he drives into the station of his choice.

We have a name for that kind of service when your choice is Marathon—it is SMILE-maker SERVICE.

At the sign of SMILE-maker SERVICE, we guarantee the service you get and the Marathon products you buy. This means we even guarantee you'll be pleased with the way we clean your windshield, check your oil, maintain our rest rooms—as well as be satisfied with all Marathon products, such as SUPER-M.

This money-back guarantee is made possible by the carefully selected and trained Marathon dealers you'll find at SMILE-maker SERVICE stations. Men who make it their business to see that you can't go wrong with Marathon.

Their stations are equipped with the most modern facilities to take care of all normal car servicing.

The Marathon products they sell are famous for quality. Products such as SUPER-M, a super gasoline that is a power tonic for today's cars—or MILE-maker, the gasoline that gives you extra power for extra miles at regular prices.

We've said it before—we say it again: When you buy at the sign of SMILE-maker SERVICE every service, every Marathon product must satisfy you—or we'll refund your money.

Why don't you drive in at the sign of MARATHON SMILE-maker SERVICE today—home of the best service you can get, and the best products your car can use.

MARATHON SMILE-maker SERVICE GUARANTEE. The Ohio Oil Company stands behind the Marathon petroleum products and the automotive services available at this service station. We guarantee that if you are not satisfied with such products and services, upon presentation to us of your evidence of purchase within 60 days from the date of such purchase, your money will be promptly refunded.

THE OHIO OIL COMPANY, Findlay, Ohio

Mrs. Defenbaugh Presents Program For Guild No. 12

"If you are suffering from the phthisic, your ailment can be cured by simmering four ounces of hen fat with a root of skunk cabbage and taking one teaspoon full three times a day," so read Mrs. William Defenbaugh when she discussed Health for the five minute topic during the meeting of Berger Hospital Guild No. 12 held on Monday evening in the Saltcreek twp. home of Mrs. Leslie Deenbaugh.

Mrs. Defenbaugh's information came from a book called, "A Family Manual" published in 1854 which belonged to Stephen Defenbaugh. The book in addition to supplying information thus enabling each person to become his or her own physician" also included "cookin'", "safe directions for the management of Children", instructions for "Ladies under various circumstances" as well as rules of etiquette and a number of other subjects.

In illustrating the progress made in medicine in the past 100 years, Mrs. Defenbaugh read several recipes for cures for various ailments, among them a "sure cure for cold" for which the reader was to use "3 cents worth of liquorice, 3 cents worth of rock candy, put them in a quart of water and simmer them till thoroughly dissolved add 3 cents worth of paragore-

ic and like quantity of antimonial wine".

"To procure sleep" it was recommended that the reader, "Wash the head in a decoction of dill seed, and smell of it frequently". Dandelions, arrow root, snakeroot and poplar root were often used ingredients for curing the many ailments listed in the book and of course, the final recipe was for a "universal cure-all".

The reader was advised according to Mrs. Defenbaugh, to "Never give medicine to a very young child. Many have lost darling children. It will, if not be murdered, be permanently injured. It cries often on account of tight clothes or the pricking of pins. If medicine must be given at all give it to the nurse".

Following the business meeting conducted by Mrs. Dearth new officers of the Guild were installed by Mrs. Robert E. Bower. Mrs. Defenbaugh is the new chairman, Mrs. Orley Judy is vice-chairman, Mrs. Robert Schmidt is secretary and Mrs. George Huskey is treasurer.

The rest of the evening was spent in making yarn balls which the Guild will sell at the annual General Guild Bazaar.

Refreshments were served by the hostess at the close of the evening.

Mrs. Sayre Presents Topic To EUB Sunday School Class

Mrs. Leora Sayre, county home demonstration agent, was guest speaker for the Dorcas Pathfinder Sunday School Class of the Calvary EUB Church, when it met in the annex Friday evening.

Mrs. Sayre presented the topic

Federation of Women Clubs Plans Annual Convention

Awards, outstanding speakers, a tea at the Governor's mansion, installing new officers, and a fashion show at which the ideal costume for a club woman will be selected are just a few of the highlights of the annual convention of the Ohio Federation of Women's Clubs which will be held in Columbus April 29, 30 and May 1.

The theme for the convention, selected by Mrs. Ray W. Davis of Circleville, president of the Ohio Federation will be the words of Alice Ames Winter, "May the Spirit of the Lord rest upon us, the Spirit of Wisdom and Understanding, the Spirit of Counsel and Right, the Spirit of Knowledge and the Fear of the Lord."

Among the awards to be made are those for outstanding press books, the judging for which is being done this year by the staff of the Circleville Herald. Other awards will be made to the Community Achievement Contest winners. These clubs in addition to receiving cash awards will compete with other clubs throughout the country for up to \$10,000 in grants to be used in developing their local projects. Another award will be made to Ohio's ideal family as named in a contest sponsored by the American Home Department. These represent only a few of the awards which will be made following the awards luncheon to be held on Wednesday the second day of the Convention.

Speakers for the sessions will include John Morley correspondent and world traveler, Governor C. William O'Neill, Mrs. Carroll E. Miller third vice president of the General Federation of Women's Clubs, who will install the newly elected officers, Dr. Harvey Hahn minister of the Oberlein EUB Church of Dayton, Mrs. Louise Bushnell who is Program Director, Women's Organizations for the National Association of Manufacturers and Miss Sue Gorsuch and John Stimmel, students at OSU who will speak on the subject, "Meet Youth in Search of a Future".

The Columbus Lyric Theater under the direction of Miss Patricia Gaines will also provide entertainment during the convention.

Mrs. Trump Reelected President of Garden Club

Solaqua Garden Club met in the home of Mrs. Harry Trump Friday, April 11th. The meeting was in charge of Mrs. Trump, president. Mrs. John Eitel read the devotional.

The following officers were re-elected to serve another year: Mrs. Harry Trump, President; Mrs. Cecil Ward, Vice President; Mrs. Howard Koch, Secretary; Mrs. Jennie Russel, Treasurer.

Mrs. C. W. Hedges, club representative, gave a detailed report on the regional meeting held Feb. 21st at Lincoln Lodge, Columbus.

It was decided to continue to plant trees in Ted Lewis Park again this year. Mystery sister gifts were received by Mrs. Alfred Cook and Mrs. Edith Koch. Mrs. Lee Downs won the monthly lunch. Coffee will be served.

On Friday, May 9th starting at 10 a.m. an open meeting and flower arrangement workshop will be held at the Robtown Parish House. There will be a guest speaker and demonstrator. Invitations have been mailed and those interested are asked to bring a sack lunch. Coffee will be served.

For the program, Mrs. H. O. Caldwell presented a travelogue and lecture. She showed interesting and educational colored slides of India and Japan, which were selected from her collection of pictures taken on her recent "Around the World" Air Tour.

Luncheon was served by Mrs. Trump and her assistant Mrs. John Eitel to guests and members as follows: Mrs. Caldwell, Mrs. John Hedges, Mrs. W. H. Barch, Mrs. Walter Cummings, Mrs. Glen Fausnaugh, Mrs. Frank Grice, Mrs. Charles Huston, Mrs. Edith Koch, Mrs. Homer Peters, Mrs. Russell Perrill, Mrs. Glen Rinehart, Mrs. Jennie Russell, Mrs.

Miss Ehret Speaker for Garden Club

The Roundtown Garden Club met last evening at the home of Mrs. Ronald List with 12 members and two guests present. The guests were Miss Alma Ehret and Mrs. David Evans.

After a short business meeting Miss Ehret answered questions on house plants. She stated that she thinks most people water their house plants too much.

She suggested a solution of 1 teaspoon of ammonium to 1 qt of water to water a fern and not to touch it any more than can be helped.

African violets should be fed every two weeks and they will thrive when watered with steaming hot water.

She showed a few plants that she thought were interesting and answered many other questions for the members of the club.

Refreshments were served by the hostess. * * *

Country Club Plans Luncheon Style Show

A Spring Luncheon and Style Show will be held by the members of the Pickaway Country Club at 12:30 p.m. today. Approximately 90 women are expected to attend.

An informal style show of casual clothes will be presented by Sharff's Women's Apparel.

Members on the committee for the luncheon and style show are Mrs. Jack Clifton and Mrs. F. O. Patrick.

The foster parents have been chosen, and lawyers are busy with adoption formalities.

Mrs. Winkley's husband, Roy, is an engineer.

"He hates babies, too," she says.

Personals

Mrs. Leora Sayre and Miss Jo Ann Brink returned Monday evening after a three-day visit at Ripley and Charleston, West Virginia.

Mrs. C. E. Davis, N. Court St.,

will be spending Tuesday and Wednesday in Columbus with her sister, Mrs. Aletha Lucas, 2662 Summit St., who has been a patient at University Hospital.

On Friday, May 9th starting at 10 a.m. an open meeting and flower arrangement workshop will be held at the Robtown Parish House. There will be a guest speaker and demonstrator. Invitations have been mailed and those interested are asked to bring a sack lunch. Coffee will be served.

Woman Who 'Hates Babies' Condemned by Neighbors

TIMPERLEY, England — When Mrs. Sheila Winkley's fourth baby is born next July, it will be given immediately to a childless couple in a nearby town.

Mrs. Winkley and her husband want it that way. "I hate babies," she explains. "And I don't care what people are saying."

After a short business meeting Miss Ehret answered questions on house plants. She stated that she thinks most people water their house plants too much.

She suggested a solution of 1 tea-spoon of ammonia to 1 qt of water to water a fern and not to touch it any more than can be helped.

African violets should be fed every two weeks and they will thrive when watered with steaming hot water.

She showed a few plants that she thought were interesting and answered many other questions for the members of the club.

Refreshments were served by the hostess.

Fourteen

"Certainly I do," Winkley looks like any ordinary fond mother, and her children are playing happily with a big teddy bear, and says:

"Of course I love my children. It's babies I hate. And my children aren't babies and more."

Besides Annette, 7-year-old David lives with his parents. The third child, Christine, 15 months, is being cared for by welfare officials—"partly for the same reasons," Mrs. Winkley explains.

Around the village, mothers stop with their baby carriages to exchange views on Mrs. Winkley and her hatred of babies. None of them shows any sympathy with her.

"They don't realize the harm they're doing to their own children," a neighbor explains. "They go down to the park to play, and the other kids are told to keep away from them."

Senators Win Opener; Rest of Major Loop Teams Await Blastoff

By THE ASSOCIATED PRESS
The Washington Senators lead the American League, the Dodgers and Giants meet in San Francisco and the world championship pennant flies from an old telephone pole in Milwaukee.

It sounds as though they've gone and made a travesty of the game. But that's the way things were today for the full-treatment opening of the 1958 major league baseball season.

The Los Angeles Dodgers and San Francisco Giants take the field before a capacity crowd of 23,400 at Seal's Stadium for the first major league game ever played in California.

A total crowd of about 227,400 was estimated for today's eight games. Commissioner Ford Frick and NL President Warren Giles were sitting in on the ceremonies at San Francisco.

The NL champion Milwaukee Braves opened at home against the Pittsburgh Pirates, with Philadelphia at Cincinnati and the Chicago Cubs at St. Louis for a night game with the Cardinals.

In the American League, the defending champion New York Yankees were at Boston against the Red Sox, who again will be without Ted Williams, just as they were in Monday's 5-2 defeat in the traditional early opener at Washington.

AL President Will Harridge was at Chicago for the White Sox's opener against the Detroit Tigers.

Kansas City was at Cleveland and Washington at Baltimore in the other AL games.

Celtics 'Great' Despite Defeat

BOSTON (AP)—Boston Coach Red Auerbach thinks his Celtics this year were the greatest team in history despite loss of their National Basketball Assn. championship to the St. Louis Hawks.

"This was the greatest club by far I've ever seen—and I've been around 20 years," Auerbach said at the Celtics' annual breakup dinner Monday night. "It makes me feel very humble."

Auerbach said early in the season he thought that with a team such as the Celtics "I wouldn't have to worry about my job for a long time."

"I was so wrong," Red added. "It was all due to injuries."

again played left for the Red Sox as Williams fought off the effects of food poisoning.

The biggest AL crowd, 35,000, was expected at Cleveland, where Herb Score (2-1) started his comeback from last season eye injury against Kansas City and veteran right-hander Ned Garver (6-13). New manager Bobby Bragan had Minnie Minoso, Larry Doby, Fred Hatfield, Mickey Vernon (all acquired by new general manager Frank Lane) and rookie second baseman Billy Moran in the lineup.

Detroit's Jim Bunning (20-8) and Chicago's Billy Pierce (20-12), the AL's only 20-game winners last season, started at Comiskey Park. The injured Al Smith, a former Injun, was a possible starter in the outfield for the Sox, who also had ex-Orioles Tito Francona and Billy Goodman in the lineup. Detroit's new face was Billy Martin, the ex-Yankee by way of Kansas City, who is making a shift from second to short.

The Orioles picked Connie Johnson (14-11) to face the Senators and Camilo Pascual (8-17) and could have three rookies in the lineup—shortstop Ronnie Hansen, outfielder Lennie Green and first baseman Jim Marshall.

This Is Day U.S. Baseball Goes into Orbit

Senators Win Opener; Rest of Major Loop Teams Await Blastoff

By THE ASSOCIATED PRESS
The Washington Senators lead the American League, the Dodgers and Giants meet in San Francisco and the world championship pennant flies from an old telephone pole in Milwaukee.

It sounds as though they've gone and made a travesty of the game. But that's the way things were today for the full-treatment opening of the 1958 major league baseball season.

The Los Angeles Dodgers and San Francisco Giants take the field before a capacity crowd of 23,400 at Seals' Stadium for the first major league game ever played in California.

A total crowd of about 227,400 was estimated for today's eight games. Commissioner Ford Frick and NL President Warren Giles were sitting in on the ceremonies at San Francisco.

The NL champion Milwaukee Braves opened at home against the Pittsburgh Pirates, with Philadelphia at Cincinnati and the Chicago Cubs at St. Louis for a night game with the Cardinals.

In the American League, the defending champion New York Yankees were at Boston against the Red Sox, who again will be without Ted Williams, just as they were in Monday's 5-2 defeat in the traditional early opener at Washington.

AL President Will Harridge was at Chicago for the White Sox's opener against the Detroit Tigers. Kansas City was at Cleveland and Washington at Baltimore in the other AL games.

While old hands drew the pitching assignments, Don Drysdale (17-9 in '57) for the Dodgers and Ruben Gomez (15-13) for the Giants, there were a few new faces in San Francisco. The Giants had three rookies in the lineup, Jim Davenport (3b), Willie Kirkland (rf) and Orlando Cepeda (1b); the Dodgers one, Dick Gray (3b).

Dodger veteran Duke Snider shifted from center to left in a swap with Gino Cimoli that favored the Duke's slow-healing knee.

Southpaw Warren Spahn, the NL's lone 20-game winner (21-11) last season, started for the Braves in a try for his 22nd major league victory. Right-hander Bob Friend (14-18) was the Pirates' choice. Ted Kluszewski, late of Cincinnati, was Pittsburgh's first baseman, while rookie Harry Hanebrink replaced the injured Wes Covington in the outfield for the Braves, who were forced to use the telephone pole when their custom-made pennant pole was late in arriving.

A non-rookie lineup will take the field for the Cards, with Al Dark still a shortstop, Ken Boyer back at third and Bobby Gene Smith in center. Left-hander Wilm Mizell (8-10) will face right-hander Jim Brosnan (5-4) of the Cubs, who had rookie Tony Taylor in second and ex-Giant Bobby Thomson in center.

Vada Pinson, the most promising rookie in the Florida camps, opened in right for Cincinnati against the Phils and veteran right-hander Robin Roberts (10-22). The Redlegs picked right-hander Brooks Lawrence against a Phillie lineup that had ex-Red Wally Post in right field. Second baseman Gran Hamner shifted to third for the Phils, replacing veteran Willie Jones, whose 3-year-old son died Monday.

The Yankees, with shortstop Tony Kubek and utilityman Harry Simpson on the injured list, decided on right-hander Don Larsen (10-4) at Boston against Willard Nixon (12-13). Gene Marshall,

Saltcreek Downs Deer Thinclads

The Saltcreek Warriors won their second track victory in a row last night as they wallop Williamsport, 86-30.

Saltcreek's first win was a 57-10½ victory over the Darby Trojans on Friday.

The Warriors won 10 firsts and tied for an 11th. Gary Valentine was the meet's outstanding athlete as he took four firsts and a second in the pole vault.

Valentine captured the mile in 5:12.6; won a breathtaking half mile over Williamsport's Max Reeser with a 2:17.9 time. He tossed the shotput 37' 11 ¾" and won the other field event with a 104' 8" toss of the discus.

• • •

TIE only firsts captured by the Deers were the mile relay, run in 4:17.6. Max Reeser won the 440-yard-run in .58. They earned a tie in the 180-low-handles as Starkey was Salter creek's Beougher.

The Warriors next meet will be with Ashville on Friday afternoon at Saltcreek.

"Mary Haworth's Mail"

ters. Namely, immature personality; acryng need for nursery-type nurture.

DEAR MARY HAWORTH: Everybody likes to get into the act, in giving opinions so I, too, make bold to comment on the subject of marriage. Even though I am a woman, and love innocence and all the finer things in life, I have lived to learn that I, also, am weak, wayward and unstable at times — simply because my husband doesn't listen, care or share life together with me!

Consequently, if another male shows these qualities of consideration, I am immediately and immensely attracted to him. It seems to me that men haven't much (if any) respect for a woman's feminine powers of reason; therefore they don't listen, share and care. I am speaking of those that fail with women.

That's my impression; but am I wrong? Who knows the answers and understands? I don't — at all.

But, to quote from The Imitation of Christ: "If thou confidest in the Lord, strength will be given to thee from heaven, and the world and the flesh shall be made subject to thee . . . Neither shalt thou fear thine enemy, the devil, if thou art armed with faith, and signed with the cross of Christ."

G.C.

DEAR G.C.: The accent of your complaint is upon personal pique also upon craving to receive sympathy, understanding, etc., rather than upon having love to give. In short, your approach to conjugal intimacy is "strictly from hunger" — not from the heart's abundance.

Perhaps that is what's wrong with most rebels in marriage — the weak, wayward, unstable character.

Cancer Tests Tied To Fatty Substance

PHILADELPHIA (AP) — A fatty substance isolated from human cancer cells possibly may help in developing a test to determine if a person is immune from cancer.

Such a test is not yet in sight. Dr. Maurice M. Rapport of the Sloan-Kettering Institute of New York told the 49th annual meeting of the American Society of Biological Chemists, but the fatty substance called ecytopolin may be the key to its discovery.

The society is one of six national organizations making up the Federation of American Societies for Experimental Biology, which are meeting here.

Ike Books Economy Speech on May 20

WASHINGTON (AP) — President Eisenhower will make a major speech on the nation's economy on May 20 in New York.

Announcing this Monday, the White House said Eisenhower will address the concluding dinner session at the annual meeting of the American Management Assn. Conference on economic mobilization.

James C. Hagerty, presidential press secretary, said he is informing the major television and radio networks. There has been no word yet on whether the networks will carry it.

Ohio Tax Structure Survey Is Sought

GALION (AP) — A survey of the Ohio tax structure was advocated here Monday by Mayor Anthony J. Celebreze of Cleveland, a candidate for the Democratic nomination for governor.

"We need a fair and equitable tax base," he said, "because that would mean more tax dollars, higher payrolls, increased employment and expanding purchasing power."

He added that such a tax base would attract new industries to Ohio, expand present plants.

Herat Expert Elected

CINCINNATI (AP) — Dr. John W. Martin of Cleaveland has been elected president of the Ohio State Heart Association, succeeding Dr. Maurice A. Schnitker of Toledo.

EVER HAPPEN TO YOU?

TV Matinee Theater Dies

No Sponsors Pick Up Popular Program

By CHARLES MERCER

NEW YORK (AP) — There's as little sense in trying to breathe life into a dying horse as there is in beating a dead horse. You can only write him a decent obituary before someone ships him off to the glue factory.

The horse in question is a gallant 3-year-old named "Matinee Theater." It has won many a race in the estimation of many a weekend afternoon viewer but has not been able to win the grand national sponsorship handicaps. On June 27 "Matinee Theater" will present its last drama on NBC-TV.

It is folly to rant at the network over the imminent death of the hour-long five-a-week anthology dramatic series which was launched Oct. 31, 1955, in Hollywood. Rather, it should be praised for effort and tenacity.

NBC has poured about 12 million dollars into "Matinee Theater" (3 p.m., EST). Trade sources indicate the network's net loss is over \$3 million. It reached its peak of sponsorship and estimated viewing audience last summer.

At that time 15 of its 20 weekly quarter-hour periods were being sponsored. At present only 7 of the weekly periods are sponsored and its Nielsen audience rating is

Gorman Raps O'Neill

WILMINGTON (AP) — Robert N. Gorman of Cincinnati, Democratic candidate for the gubernatorial nomination, said here Monday that Republican Gov. C. William O'Neill is "playing politics at the expense of the mentally ill and mentally retarded."

about half of what it was in the summer.

Now "Matinee-Theater" is going and in its place it is expected that two half-hour soap operas will be seen.

Increasingly television programming becomes a relative matter. The best is not always possible, but the better is to be preferred to the worse. In its best productions "Matinee Theater" equalled the best of any nighttime dramatic show. At its poorest it was better than the best that daytime TV soap opera presents.

Why is it dying?

One cannot blame the network, which has stayed with it loyally. Nor can you blame commercial sponsors whose purpose it is to make money and who apparently felt they were not through this showcase. Competitively, a popular teen-age program, "American Bandstand" (ABC-TV), and an excellent extemporaneous courtroom drama, "The Verdict is Yours" (CBS-TV), have made inroads on its audience.

The unfortunate cause of the death of "Matinee Theater" is that there are not enough viewers who care to watch generally good drama in the afternoon.

Kyger Creek Aides OK New Contract

GALLIPOLIS (AP) — A seven-week strike at the mammoth Kyger Creek power plant near here ended Monday as members of the Utility Workers Union of America ratified a contract agreement by a 160-16 vote.

James Harrel, plant manager, said the 189 striking employees will go back to work beginning with the 4 p.m. shift today.

The contract provides an initial wage increase of 2 per cent April 15, and another 3 per cent Sept. 15. The increase will give workers an average hourly base rate of \$2.10 against the present average of \$2.

The contract also provides that employees receive three weeks' vacation after 12 years. They now get three weeks after 15 years.

Tot Drowns in Canal

LIMA (AP) — Brett Whittint, 2½, drowned Monday in the Miami Erie Canal at nearby Spencerville.

He lived near the canal bank with his parents, Mr. and Mrs. Glenn Whittint.

Ohio Idle Total Holding Steady

DETROIT (AP) — Production cutbacks by the Big Three — Ford, Chrysler and General Motors — at 24 auto plants across the country idled an estimated 60,000 workers this week.

The

three auto firms reported temporary shutdowns in various divisions to reduce car stocks in the face of curtailed demand.

Spokesmen declined to give figures on the number of workers idled by the closings or to give comparable figures for employment at this time last year.

Cincy 'Copter Pilot Killed in Accident

CINCINNATI (AP) — A helicopter taxi pilot en route to pick up two passengers in suburban Cincinnati, was killed Monday when a rotor blade pulled off his craft and it plummeted into a wooded hillside.

William Albert Arnen, 35, of Fort Thomas, Ky., was the second helicopter pilot for Ohio Valley Airways, Inc., to be killed in a crash in the last six months.

City Sells 65 Acres

HAMILTON (AP) — City Council Monday night agreed to sell 65 acres of land to Champion Paper & Fibre Co. which plans to build a big new consolidated headquarters building. Champion bid \$115,000 for the land last week.

Girl Scout Heads Plan Workshop

The Girl Scout District No. 7 Ohio Trefoil Council Outdoor and Advance Skills Workshop will be conducted at the Ashville shelter house on April 22-24. Activity will last from 9:30 a.m. to 2:30 p.m. each day.

The workshop will be conducted by Mrs. Vernon E. Saunders, Mrs. Jesse Miller and Mrs. Robert Burton for Ashville and Circleville adults who will assist at this year's Day Camp.

Activity will center on seven basic scouting skills. They are: good manners in the out-of-doors, how to tie square knots and clove hitches, how to use and care for a knife, fire building and safety, simple first aid, how to dress for out-of-doors activity and how to cook out-of-doors for yourself and others.

Advance skills will include lashings, reflector ovens and charcoal stoves and orienteering.

Adults are reminded to bring a fire lunch, three feet of rope and sufficient warm clothing.

Pen-Bound Booth Takes Advantage On Peculiar Rule

Franklin D. Booth, 24, Columbus, was taken to the Ohio State Penitentiary yesterday by the Pickaway County Sheriff's department. Booth pleaded guilty Saturday to charge of breaking and entering a service station near Derby.

Booth took advantage of a peculiar OSP rule. He hurried his guilty plea provided he could be put in the pen by April 15. According to penitentiary rules, prisoners entering the pen before the 15th of the month are given credit for days served from the first of the month.

Thus, Booth, in entering on the 14th, will have to serve about two weeks less on the same term than a prisoner entering on the 16th. He was sentenced to 1-15 years

NORTH END SEWER — Workmen are shown here along Morris Road between N. Atwater St. and old Route 23 as they lay pipe for the new Sewer District No. 1 project. At left a bulldozer operator is backfilling the trench in which the sewer pipe is placed. Work is progressing satisfactorily on the huge project to relieve sewer troubles in the North End. (Photo by Beaver Studio)

Radioactive Rain Is Falling

Fallout Drifting Invisibly From Sky Every Single Day

Contract to supply Circleville with cast iron pipe valves and fittings has been awarded to James B. Claw and Sons, Chicago.

Eight bids were received by the water department March 26. Claw will supply pipe ranging from 2-inch at 77 cents a foot, to 8-inch at \$2.85 a foot. The award was made by the water department board of control.

Other bidders were U. S. Pipe Foundry Co., Chicago; M & H Valve and Fittings Co., Anniston, Ala.; Darling Valve and Manufacturing Co., Williamsport, Pa.; Central Mill and Plumbing Supply Co., Columbus; R. D. Wood Co., Philadelphia; I. B. Pressler and Sons, Columbus, and the American Cast Iron Pipe Co., Chicago.

by Common Pleas Judge William Ammer.

Booth took advantage of a peculiar OSP rule. He hurried his guilty plea provided he could be put in the pen by April 15. According to penitentiary rules, prisoners entering the pen before the 15th of the month are given credit for days served from the first of the month.

Thus, Booth, in entering on the 14th, will have to serve about two weeks less on the same term than a prisoner entering on the 16th.

He was sentenced to 1-15 years

agree. Their answers add to our puzzlement.

But there are some points, some perspectives, to help in understanding the problems and the issues of fallout.

One is that fallout is a very old thing, indeed. Nature has always been sprinkling us with a radioactive rain. That rain made you and all your ancestors radioactive.

Plants take up some of these "hot" atoms, and we eat them.

Every minute some 500,000 radioactive atoms explode inside your body, giving off beta rays (electrons). And there's absolutely nothing you could ever do about it.

Atomic bullets known as cosmic rays hurtle in from space about 1,000 smash and rip through you every minute.

These cosmic rays also create radioactive carbon high up in our atmosphere. The radio-carbon drifts down, and becomes part of the carbon chemicals in wheat and corn and pigs and people — all living things.

Does this radiation hurt you?

In one pound of steak, 2,000 radioactive atoms of carbon and potassium explode every minute.

They get mixed up into concrete and bricks. Live in a brick house, or work in a cement building, and you get a good deal more X-ray radiation than if you lived or worked in a wooden building.

All this is normal or background radiation.

Don't panic. It's really quite small. It all amounts to only about 4½ roentgens in 30 years of living. That's equal to about 100 chest X-rays taken by a very efficient X-ray machine, or equal to one X-ray for study of the spine, an AEC scientist estimates.

Does this radiation hurt you?

It's radioactive, mysterious. It frightens, confuses, agitates millions of people the world over.

This is fallout, the radioactive rain from tests of A-bombs and H-bombs.

The United States has collected more of it than most any other country — we are the "hottest" nation, says Dr. Willard F. Libby, an atomic energy commissioner.

But he and others quickly add that this doesn't mean much — that fallout is adding only a tiny bit to the radioactivity which your grandmother and her grandfather — all your ancestors — have always lived with.

Fallout is at the heart of one of the great urgent issues of our day — whether to continue testing these awful weapons. It involves military, scientific, emotional, political, humanitarian questions and arguments.

Is fallout dooming thousands of millions of future babies to monstrous deformity, death or illness?

Is it — right now — giving some of us cancer, or stealing away days or years of our lives?

The questions nag. Experts dis-

agree. Their answers add to our puzzlement.

But there are some points, some perspectives, to help in understanding the problems and the issues of fallout.

One is that fallout is a very old thing, indeed. Nature has always been sprinkling us with a radioactive rain. That rain made you and all your ancestors radioactive.

Every minute some 500,000 radioactive atoms explode inside your body, giving off beta rays (electrons). And there's absolutely nothing you could ever do about it.

Atomic bullets known as cosmic rays hurtle in from space about 1,000 smash and rip through you every minute.

These cosmic rays also create radioactive carbon high up in our atmosphere. The radio-carbon drifts down, and becomes part of the carbon chemicals in wheat and corn and pigs and people — all living things.

Does this radiation hurt you?

In one pound of steak, 2,000 radioactive atoms of carbon and potassium explode every minute.

They get mixed up into concrete and bricks. Live in a brick house, or work in a cement building, and you get a good deal more X-ray radiation than if you lived or worked in a wooden building.

All this is normal or background radiation.

Don't panic. It's really quite small. It all amounts to only about 4½ roentgens in 30 years of living. That's equal to about 100 chest X-rays taken by a very efficient X-ray machine, or equal to one X-ray for study of the spine, an AEC scientist estimates.

Does this radiation hurt you?

It's radioactive, mysterious. It frightens, confuses, agitates millions of people the world over.

This is fallout, the radioactive rain from tests of A-bombs and H-bombs.

The United States has collected more of it than most any other country — we are the "hottest" nation, says Dr. Willard F. Libby, an atomic energy commissioner.

But he and others quickly add that this doesn't mean much — that fallout is adding only a tiny bit to the radioactivity which your grandmother and her grandfather — all your ancestors — have always lived with.

Fallout is at the heart of one of the great urgent issues of our day — whether to continue testing these awful weapons. It involves military, scientific, emotional, political, humanitarian questions and arguments.

Is fallout dooming thousands of millions of future babies to monstrous deformity, death or illness?

Is it — right now — giving some of us cancer, or stealing away days or years of our lives?

The questions nag. Experts dis-

agree. Their answers add to our puzzlement.

But there are some points, some perspectives, to help in understanding the problems and the issues of fallout.

One is that fallout is a very old thing, indeed. Nature has always been sprinkling us with a radioactive rain. That rain made you and all your ancestors radioactive.

Plants take up some of these "hot" atoms, and we eat them.

Girl Scout Heads Plan Workshop

The Girl Scout District No. 7 Ohio Trefoil Council Outdoor and Advance Skills Workshop will be conducted at the Ashville shelter house on April 22-24. Activity will last from 9:30 a.m. to 2:30 p.m. each day.

The workshop will be conducted by Mrs. Vernon E. Saunders, Mrs. Jesse Miller and Mrs. Robert Burton for Ashville and Circleville adults who will assist at this year's Day Camp.

Activity will center on seven basic scouting skills. They are: good manners, the out-of-doors, how to tie square knots and clove hitches, how to use and care for a knife, fire building and safety, simple first aid, how to dress for out-of-doors activity and how to cook out-of-doors for yourself and others.

Advance skills will include lashing, reflector ovens and charcoal stoves and orienteering.

Adults are reminded to bring a fire lunch, three feet of rope and sufficient warm clothing.

Pen-Bound Booth Takes Advantage On Peculiar Rule

Franklin D. Booth, 24, Columbus, was taken to the Ohio State Penitentiary yesterday by the Pickaway County Sheriff's department. Booth pleaded guilty Saturday to a charge of breaking and entering a service station near Derby.

Booth took advantage of a peculiar OSP rule. He hurried his guilty plea provided he could be put in the pen by April 15. According to penitentiary rules, prisoners entering the pen before the 15th of the month are given credit for days served from the first of the month.

Thus, Booth, in entering on the 14th, will have to serve about two weeks less on the same term as a prisoner entering on the 16th.

He was sentenced to 1-5 years.

Radioactive Rain Is Falling

Fallout Drifting Invisibly From Sky Every Single Day

Contract to supply Circleville with cast iron pipe valves and fittings has been awarded to James B. Clow and Sons, Chicago.

Eight bids were received by the city water department March 26.

Clow will supply pipe ranging from 2-inch at 77 cents a foot, to 8-inch at \$2.85 a foot. The award was made by the water department board of control.

Other bidders were U. S. Pipe Foundry Co., Chicago; M. & H. Valve and Fittings Co., Anniston, Ala.; Darling Valve and Manufacturing Co., Williamsport, Pa.; Central Mill and Plumbing Supply Co., Columbus; R. D. Wood Co., Philadelphia; I. B. Pressler and Sons, Columbus, and the American Cast Iron Pipe Co., Chicago.

'58 World's Fair Mixes Fun, Art

BRUSSELS, Belgium (AP) — The 1958 World's Fair isn't going to be all art, industry, culture and uplift. There'll also be fun, food, games and dancing girls.

Outstanding among the offerings at a giant amusement park will be an aquatic show with imported American lovelies, a Hawaiian village with hula dancers and pineapple stuffed suckling pig, and a circular building for cabaret dancing.

The Belgian backers of the first world's exposition in 19 years are not advertising nude shows, shedding your shirt fandangos or plain strip tease. But "there'll be something to suit every taste," said a spokesman, "and by that I mean every taste."

Emphasis will be placed on making the visitors comfortable. The organizers have assembled a fleet of wheelchairs for the old and disabled, batteries for hearing aids, and a children's kingdom for the young. There'll be a fleet of moving chairs for the foot-sore and weary. An easy-riding train will glide past the exhibits and attractions.

For the ultra blase who disdain approaching the fair by automobile, bus, train, or conventional airplane, a heliport has been built inside the fair grounds. By day and night helicopters from Paris, Antwerp, Bonn, Cologne, Dortmund, Duisburg, Eindhoven, Liege, Lille and Rotterdam will deposit and pick up fair visitors.

In the children's kingdom, a mother may park her child for 20 cents a day with English-speaking nurses and others who can parlez several languages of the world. The kingdom will offer puppet shows, games, lunches at about 50 cents on a grassy terrace hot and cold showers and races in miniature cars.

The super thrill for the young

Pickaway Grange Report

Scioto Valley Grange will serve as host to Mt. Pleasant Grange on April 22. Mt. Pleasant will present a traveling program during the lecture hour.

At the last regular Scioto Valley meeting conducted by Worthy Master Harold Bumgarner, one officer failed to answer roll call. Mrs. Walter Berger acted promptly.

Final plans were made and committees named to conduct the cafe-

teria supper. Members were re-minded of the sewing contest and to return their entry cards promptly.

At the first May meeting, the youth of the Grange will fill the chairs and prepare and present the program.

Guests for the evening, Mr. and Mrs. Ewald, of the Columbus State Hospital, were welcomed as Grange members from Mason

Grange of Columbus.

Mr. Ewald presented the evening program which was a discussion of Ohio State Hospitals and mental illness. He said mental disease will touch one member of three families out of 10. He noted that persons confined at the hospital come from every walk of life.

But we've been living with this natural radiation all our lives without any fear about it. Partly because we didn't know much about it until recently. Partly because we can't do anything to stop it, anyhow.

Fear was really born when A-bombs burst over Japan. These bombs killed by blast and fire, as did ordinary bombs, but with a horrible efficiency. And they added a new and unknown terror — death and sickness from this stranger called radioactivity.

One thing about this new radioactivity — it is made by man; it can be stopped by man.

The really critical question is how much radioactivity it is giving us, and what this is doing to us, or may do.

NEXT: How radioactive are we from bomb tests?

One pound of steak, 2,000 radioactive atoms of carbon and potassium explode every minute.

Plants take up some of these "hot" atoms, and we eat them

They get mixed up into concrete and bricks. Live in a brick house, or work in a cement building, and you get a good deal more X-ray radiation than if you lived or worked in a wooden building.

All this is normal or background radiation.

Don't panic. It's really quite small. It all amounts to only about 4½ roentgens in 30 years of living. That's equal to about 100 chest X-rays taken by a very efficient X-ray machine, or equal to one X-ray for study of the spine, an AEC scientist estimates.

Old Affidavit Still Official

Deputy Sheriff Dwight Radcliff has a long memory. Yesterday he arrested Willard Hughes, 31, Columbus, on a non-support affidavit dated in November 1956.

Hughes was picked up at his home in Columbus. Several times, Radcliff said, calls have been made at Hughes' home, but he was never at home. Hughes previously talked to Sheriff Charles Radcliff by phone and said he would give himself up, but he still hadn't done so yesterday.

After attending a meeting in Columbus yesterday, Deputy Radcliff stopped by Hughes' home. He was there and willingly gave himself up. Hughes is charged with failing to support two minor children.
